Don't throw electronic equipment away. Most of it can be given away to charities that will use cell phones, printers, computers, copiers, fax machines, etc.

Some will even pick up the equipment for you. There are a lot of students and teachers who will appreciate any

used computer equipment. There are even organizations that collect electronics to take overseas. When you dispose of equipment responsibly, your old equipment will get a second life. There is toxic material in electronic equipment and most of the plastics, silicone and metals won't biodegrade, so you will be doing us all a favor to keep it out of landfills.
